HEMP BODY PRODUCTS

In recent years there has been a huge explosion in what is commonly known as natural or 'green' bodycare and Yaoh is one of a number of young companies that has come to the forefront of the market this decade.

Yaoh products are:

Free from parabens – Parabens are found in most other bodycare products and act as preservatives. Recently there have been scares associating parabens with breast cancer tumours. Yaoh uses a combination of grapefruit seed extract and Japanese honeysuckle instead.

Free for Sodium Lauryl Sulphates – Another common ingredient in mainstream bodycare linked with cancers and also a known skin irritant. Yaoh avoids the use of SLS in its ingredients in all its products.

Free from chemical stabilisers and preservatives. Yaoh products are made fresh and do not require the addition of these chemicals to keep our products stable.

Rich in organic hemp seed oil – The hemp seed oil is absorbed directly into the skin and works on a cellular level both repairing and preventing damage.

Rich in essential oils and herbal extracts.

Made fresh every six to eight weeks – Yaoh bodycare products are made in small runs to ensure optimum freshness at all times.

Vegan, not tested on animals, organic ingredients where possible.
